

DEFENDER™ PROFILED MESH FENCING

No-dig, relocatable fencing

PRODUCT OVERVIEW

DEFENDER™ PROFILED MESH FENCING provides much **greater rigidity** and **strength** than traditional flat mesh panels and achieves an improved level of security for those sites where standard builder's temporary fencing is considered insufficient.

 Available in 2.4 and 3m heights.

No-Dig Installation

No-dig system, completely relocatable and reusable.

Wind Loading Calculations

Full site-specific wind loading calculations available on request.

Vehicle & Pedestrian Gates

Gate systems available designed for safe and secure access to site.

Anti-Trip

Zero trip hazards on the pedestrian facing side of the fence system.

ACCESSORIES

DEFENDER™ PROFILED MESH FENCING is available with various accessories designed to create a practical, safe and accessible fencing system.

DEFENDER™ BETTER BY DESIGN

The **DEFENDER™** system is not only a highly effective and flexible system, it has also been designed to be straight forward to install, store and transport.

The system comes supplied with all fixings.

The base units are stackable to save space when not in use and the bottom most base unit has fork lift pockets so that the stack can be positioned easily.

The posts are supplied with a plastic cap incorporating hanging hooks to assist installation.
