

IMPORANT NOTICE

Prior to carrying out any installation you should refer to our website in order to confirm that this guide is current and still applicable

Installation guide GAS CAGE

SAFE HANDLING PROCEDURE

Wherever possible, manual handling of the product should be avoided by the use of mechanical lifting equipment.

It is essential that every load is assessed prior to lifting to reduce the risk of injury.

All manual handling should be carried out in accordance with The Manual Handling Operations Regulations 1992 and later amendments.

COMPONENTS

Base And Top Panels

Side And Rear Panels

Door Panel

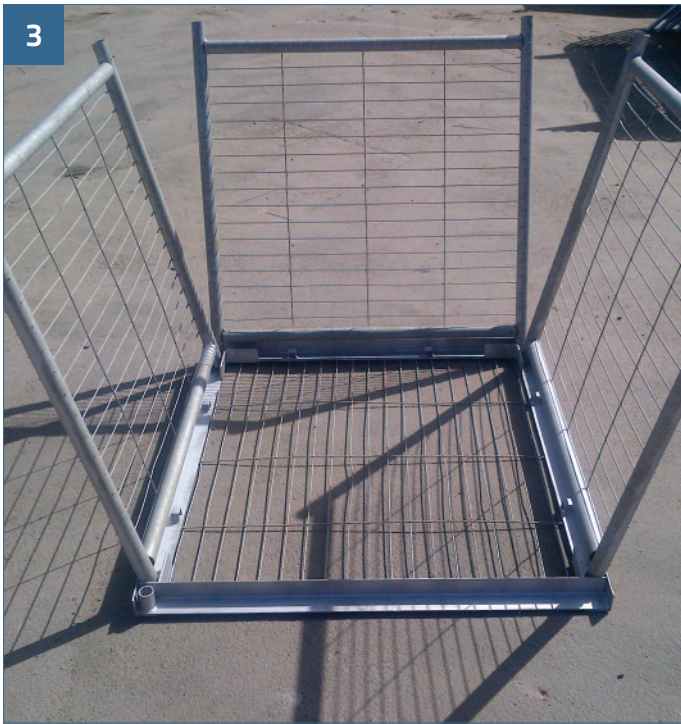

THE INSTALLATION PROCESS

Place Base panel in the desired location with the flat edge side pointing toward your access.

Insert the first Side panel as shown and allow it to rest in the base.

Place the second and third Side panels in place, and again allow to rest in the base.

Place the Door panel in the front position and allow it to rest in the base.

Place Top panel in position and adjust sides to fit securely into channels. Ensure the door panel opens and closes.

Finished product.

Important Notice

It is the client's responsibility to ensure that the installation is fully checked on a regular basis, particularly after high winds or severe weather conditions, paying particular attention to the security of fixings used within the installation.
